

# COMPANY PROFILE

# ABOUT US

Dorathia Advisory (Pty) Ltd is a premier South African technology consultancy delivering executive-level IT leadership, digital risk management, and operational excellence to growing enterprises.

We specialize in supporting Small, Medium, and Micro Enterprises (SMMEs) that require strategic technology direction but do not yet necessitate a full-time Chief Information Officer. Through our Fractional and Virtual CIO (vCIO) models, we provide on-demand executive technology leadership that aligns digital strategy with business growth.

Founded on the principle of Providential Guidance, Dorathia Advisory ensures that technology serves as a secure, ethical, and scalable engine for sustainable innovation.

OUR IDENTITY

DORATHIA

**Definition:**

Gift of God, reflects our commitment to being a gift of wisdom and foresight in complex digital environments.

**Our Mission**

To secure the digital future of African enterprises through embedded leadership, governance excellence, and ethical technical guardrails.

**Our Vision**

To democratize access to C-suite technology expertise, making world-class IT strategy attainable for every growing business.

# OUR CORE SERVICE PILLARS

## GOVERNANCE, RISK & COMPLIANCE (GRC)

We design robust IT governance and risk frameworks that align technology with business strategy while ensuring regulatory compliance. From board-level assurance to POPIA programmes and audit remediation, we strengthen oversight, accountability, and control across the enterprise.

## CYBERSECURITY & DIGITAL RESILIENCE

We help organisations build resilient, security-first environments that protect critical assets and operations. Through cybersecurity maturity assessments, security architecture design, awareness programmes, and disaster recovery strategies, we reduce risk and enhance operational continuity.

## DIGITAL TRANSFORMATION & ENTERPRISE ARCHITECTURE

We enable structured, strategy-led digital transformation that aligns technology investments to business outcomes. From enterprise architecture and cloud strategy to automation readiness and process re-engineering, we modernise environments for scalable growth.

## IT OPERATIONS, INFRASTRUCTURE & CAPABILITY ENABLEMENT

We optimise IT operations to deliver measurable efficiency, cost control, and service excellence. Through ITSM implementation, infrastructure advisory, governance optimisation, and executive training, we strengthen operational performance and internal capability.

# OUR LEADERSHIP

## Mr. Sifiso S. Nkambule

Founder & Chief Executive Officer

Mr. Nkambule is a seasoned IT specialist and a respected advocate for ethical innovation within South Africa. With a strong background in the public sector, he brings a rare combination of technical depth and executive-level strategic insight.

As a Fractional CIO, he serves as a Guardian of Digital Progress, ensuring that technology remains aligned with each client's broader mission and long-term objectives.

Mr Nkambule holds a BSc in Informatics and certified in ITIL, COBIT and TOGAF. Received training in CMMI for Software Development, Services and Acquisition.

# THE DORATHIA ADVANTAGE

## Executive Accessibility

Flexible, pay-for-what-you-need C-suite expertise

## Independent Advisory

Unbiased recommendations free from vendor commissions

## Local Insight

Deep understanding of South African infrastructure, regulatory, and economic contexts

## Ethical Leadership

Governance-driven strategies rooted in accountability and integrity
